

ISTHIFA I M

Java Backend Developer

Bengaluru, Karnataka | +91-7892182271 | iisthifa1@gmail.com
isthifa-7bb617229 | github.com/isthifa

Professional Summary

Java Backend Developer with 2.1 years of experience developing and maintaining backend applications using Java, Spring Boot, REST APIs, Microservices, JPA/Hibernate, and relational databases. Experienced in building scalable services, debugging production issues, writing unit tests, and working in Agile development environments. Familiar with cloud platforms, messaging systems, CI/CD, and modern backend development practices.

Technical Skills

Languages: Java, SQL, JavaScript

Backend: Spring Boot, Spring MVC, REST APIs, Microservices, Spring Data JPA, Hibernate

Core Java: OOP, Collections, Exception Handling, Multithreading, Java 8 Streams

Databases: PostgreSQL, MySQL

Testing: JUnit, Mockito, MockMvc

Tools: Git, Maven, Postman, Swagger, IntelliJ IDEA

Cloud & DevOps: AWS, Azure, Docker, CI/CD

Additional: RabbitMQ, Agile/Scrum, HTML, CSS, React

Professional Experience

EG India (EG A/S)

Bengaluru, India

Junior Software Engineer

Present

- Develop and maintain backend services and REST APIs using Java and Spring Boot for enterprise applications.
- Work with microservices-based systems and integrate services with relational databases using Spring Data JPA and Hibernate.
- Implement business logic, validations, exception handling, and API integrations while following clean coding practices.
- Debug application issues, perform bug fixes and enhancements, and improve reliability of existing functionality.
- Write and maintain unit tests using JUnit and Mockito to validate application behavior and improve code quality.
- Work with PostgreSQL and SQL queries for data retrieval, persistence, and application troubleshooting.
- Collaborate with frontend developers, QA engineers, and business stakeholders in an Agile development environment.
- Use Git for version control and participate in code reviews, deployments, and CI/CD development workflows.

Pace Wisdom Solutions

Bengaluru, India

Software Engineer Intern

Apr 2023 – Oct 2023

- Developed backend functionality using Java, Spring Boot, REST APIs, and relational databases.
- Worked on API development, database integration, debugging, testing, and bug fixing as part of the development team.
- Used Git, Maven, Postman, JPA/Hibernate, and SQL during application development and testing.

Key Projects

Energy Management Platform

Java, Spring Boot, Microservices, PostgreSQL

- Contributed to a microservices-based energy management platform handling grid-company processes, contracts, work orders, meter dismantling, and broken-meter workflows.
- Developed and maintained backend APIs and business logic and supported integration between application services.

Self-Service Portal

REST APIs, Azure, Cloud Integration

- Worked on a customer self-service platform supporting customer-facing energy services and third-party integrations.
- Contributed to payment integration, API-driven functionality, Azure services, and application enhancements.

Education

Bachelor of Engineering in Computer Science and Engineering

2022

P.A. College of Engineering

Certification

AWS Certified AI Practitioner (AIF-C01) — Amazon Web Services, 2026
